The corporate keeps to the procedure concept "scientific administration, premium quality and performance primacy, buyer supreme for OEM Factory for China High Quality Polyurethane Foam Polyether Polyol, Besides, our enterprise sticks to high-quality and fair value, and we also offer you fantastic OEM solutions to several famous brands.

OEM Factory for China Polyurethane Foam Polyether Polyol Our company mission is that providing high quality and beautiful products and solutions with reasonable price and strive to gain 100% good reputation from our clients. We believe Profession achieves excellence! We welcome you to cooperate with us and grow up together.

Polyurethane Foam Polyether Polyol detail

Polyether polyol (polyether) is an organic polymer, which is composed of initiator (compound containing active hydrogen group) and ethylene oxide (EO), propylene oxide (PO), butylene oxide (BO) and so on in the presence of a catalyst through addition polymerization. The largest polyether output is glycerol (glycerol) as the starter and epoxide (generally PO and EO are used together), by changing the feeding method of PO and EO (mixed or separated), addition ratio, Adding order and other conditions, produce various general polyether polyols.

Polyurethane Foam Polyether Polyol application

Flexible foam,rigid foam,high resilience,elastomer and self-skin etc.

Polyurethane Foam Polyether Polyol packing

210kgs/drum
